

Project ACHIEVE Resources at the Kindergarten Level:

Project ACHIEVE is a full partner with Core Knowledge—helping schools and staff to create positive and engaging classroom climates, implement effective classroom management approaches, teach students self-management, and maintain safe school environments. Project ACHIEVE also provides strategies to help students with social, emotional, and behavioral challenges so that they can academically and behaviorally progress over time.

Project ACHIEVE has a number of resources to help in these areas—electronic books, social skills materials, and parent training guides. Here are the essential Project ACHIEVE materials at the Kindergarten level:

How to Implement a School-wide Discipline, Behavior Management, and School Safety System:

This Electronic Book describes the six critical components that make up Project ACHIEVE's evidence-based Positive Behavioral Self-Management System (PBSS): (a) the [Stop & Think Social Skills Program](#); (b) the development of a school-wide student accountability systems; (c) ways to increase staff and student consistency; (d) how to keep the common areas of a school safe and prevent teasing, taunting, bullying, harassment, and physical aggression; (e) crisis prevention, intervention, and response; and (f) the importance of home and community outreach.

Implementing Effective School-wide Student Discipline and Behavior Management Systems: Increasing Academic Engagement and Achievement, Decreasing Teasing and Bullying, and Keeping Your School and Common Areas Safe

How to Teach Students Classroom and Building Routines and Safety Skills:

This Electronic Book describes Project ACHIEVE's evidence-based [Stop & Think Social Skills Program](#), along with the social skills that are integrated into Core Knowledge's preschool Social Competence curriculum. These latter skills are used in all [Core Knowledge](#) preschool classrooms, and they are supported by Core Knowledge's [Stop & Think Music CD](#) and its [Preschool Posters](#). The Electronic book also shows how to teach over 100 Classroom and Building Routines (How to Enter a Classroom, Participating in a Classroom Discussion, How to Transition from One Activity to Another, Walking in the Hallway, etc.)—at the prekindergarten to Grade 1, Grades 2 and 3, Grades 4 and 5, and Middle School levels.

More [Stop & Think Social Skills](#) and Steps: Classroom And Building Routines and Scripts from Preschool to High School

Site License Price:
\$149.95

How to Create a School-wide Behavioral Accountability System Resulting in Student Responsibility and Staff Consistency:

This Electronic Book discusses the importance of holding students accountable for inappropriate school behavior and how this fits into a school-wide discipline and behavior management system. It also describes the step-by-step process whereby schools develop consistent grade-level and school-wide behavioral standards. By organizing behavioral expectations into a "Behavioral Matrix," staff and administrators have a behavioral template or document "roadmap" that identifies expected student behaviors (connected to positive responses, incentives, and rewards), and different intensity levels of inappropriate behavior (with strategic responses or interventions to facilitate their change).

\$149.95

Decreasing Student Discipline Referrals to the Office using an Educative Time-Out Process:

Time-out is an incredibly powerful intervention that is used almost-universally in most elementary (and some middle) schools as part of teachers' classroom management systems. Unfortunately, most teachers have never been formally trained in how to use this approach effectively—resulting in inconsistent use across teachers, and a focus more on punishment than changing student behavior. This Electronic Book describes the step-by-step school-wide implementation of an educative approach to Time-Out—from the classroom to the building principal's office. When implemented across a school, staff consistency is enhanced, and student discipline referrals to the office decrease.

Changing Student Behavior by Linking Office Discipline Referrals to a Strategic Time-Out Process: A Step-by-Step Implementation Guide to the Effective Use of Classroom Consequences

\$119.95

Developing Effective Academic and Behavioral Interventions for Students—A "Response-to-Intervention" (RtI) Process:

This Electronic Book describes how to implement effective "Response-to-Intervention" (RtI) systems at the school, district, and state levels, as well as how to systematically analyze students' academic and/or behavioral problems and develop effective interventions. This functional assessment and intervention process has been used nationally from preschool through high school, and it is the RtI process for the Arkansas Department of Education as well as many other large and small school districts.

Implementing Response-to-Intervention at the School, District, and State Levels: Functional Assessment, Data-based Problem Solving, And Evidence-based Academic and Behavioral Interventions

Single Unit Price:
\$39.95
Site License Price:
\$159.95

Developing Effective Academic and Behavioral Interventions for Students—A "Response-to-Intervention" (RtI) Process:

This **reproducible** Electronic Book gives you the essential background and forms needed to address many areas critical to school improvement: Strategic planning and organizational readiness; Evaluation and accountability; Effective school and schooling processes; Positive behavioral support systems; Academic planning and articulation; Community and family outreach; and Response-to-Intervention (RtI) and Data-based Problem-Solving. Based on 20 years of Project ACHIEVE implementation, these user-friendly surveys, questionnaires, and forms will help increase your school, staff, and student success.
